2x2 LED Troffer

2x2 LED Troffer

DESCRIPTION

The perfect solution for replacing inefficient, burnt-out, flickering fluorescents. The LED Troffer Family delivers, with a heavy duty, aluminum frame. The high performance lens creates a uniform distribution of light from edge-to-edge, while maximizing lumen output. Available in two standard sizes, 2x2 and 2x4, that install easily into standard lay-in grid ceilings.

DESIGN FEATURES

Construction

- Heavy duty, white powder coated aluminum frame with hinged lens panel

Electrical

- Operating voltage AC120V and 277V
- IC rated for direct contact with insulation
- 29W | 3100 lumens
- 50,000 hour projected life
