DC Motor Ceiling Fan Wall-Mounted Control and Receiver

DESCRIPTION

The WCD Wall-Mounted Control and Canopy Mounted Driver are for use with DC Motor Ceiling Fans 1070W, 1080W, or 1088. The wall control allows you to control the fan speed, change the direction of the blades, and turn the light on and off. Designed with no battery, this easy to install wall control adds flexible operation from where you want.
